UX / Product Designer with experience creating user-centered digital products through research, wireframing, prototyping, usability testing, and iterative design. Brings a disciplined, detail-oriented approach shaped by military precision work and quality assurance. Focused on designing accessible, intuitive experiences and collaborating across teams to deliver clear, effective product solutions.

Core Competencies

UX & Product: User Research, UX Design, UI Design, Wireframing, Prototyping, User Flows, Information Architecture, Usability Testing, Accessibility, Interaction Design

Tools: Figma, Adobe Creative Suite, Miro, Microsoft Office Suite

Technical: HTML, CSS, JavaScript, TypeScript, React Native, Expo, Supabase, SQL, Git/GitHub

Languages: English (Native) · Romanian (Fluent)

Experience

UX Designer & Researcher | DePaul University | Jan 2024 - Present

- Design wireframes, prototypes, and interface concepts in Figma for web-based UX projects across multiple stages of the design process.
- Apply user-centered design principles to improve usability, navigation clarity, and visual hierarchy.
- Iterate on designs through feedback from peers, stakeholders, and instructors.
- Collaborate with designers and developers to refine layouts and interactions within technical constraints.

UX Designer (Website Redesign) | Blue Demon Theatre | Jan 2024 – Apr 2024

- Created wireframes and interactive prototypes in Figma for a theatre website redesign.
- Improved content organization and navigation through research-informed design decisions.
- Worked with developers in Weebly to support accurate implementation and design consistency.

Aircraft Maintenance Specialist | United States Air Force | Oct 2018 – Oct 2024

- Performed precision structural repairs and preventive maintenance in safety-critical environments.
- Maintained detailed technical documentation under strict quality and compliance standards.
- Reduced maintenance time by **20%** through improved quality-control practices.

Projects

Backwater Journal | Product Design + Mobile App Development

- Designed and built Backwater Journal, a mobile fishing app focused on catch logging, journaling, species tracking, messaging, and community features.
- Created user flows and interface patterns across journal, profile, and messaging experiences.
- Worked with React Native, Expo, Supabase, and SQL to bring product decisions into implementation.

Arcadian Homes | UX/UI Design

- Designed a housing-focused digital experience centered on clear navigation, content structure, and polished presentation.
- Created interface layouts and user flow decisions that improved browsability and usability.

Education

Bachelors in User Experience Research and Design | DePaul University | 2024 - Present

Certifications

- [UX Design Specialization - Certification \(2024\)](#)
- [Google Cloud Database Engineer Certification \(2024\)](#)
